

PEMAC and SMRP Announce Partnership for Asset Management Webinar Series

ATLANTA, GA (July 31, 2017) – The Plant Engineering and Maintenance Association of Canada (PEMAC) and the Society for Maintenance & Reliability Professionals (SMRP) have partnered together for a two-part webinar series on asset management. The webinars are scheduled to take place on September 7 and 14, 2017, with a third happening in January 2018.

The two September webinars focus on the [Nova Scotia Power](#) (NSPI) asset management journey and how the organization supports equipment integrity through predictive maintenance and risk-based inspection. Warren Rodgers, senior engineer of the asset management office, leads the discussion on NSPI's asset management programs.

The third webinar explores process improvement methodology with Lindsay Hall, Manager, Britannia Beach with [EPCOR Utilities](#). This presentation dives into the change of EPCOR Water Services, Inc. (EWSI) from a traditional management system development to the process improvement methodology and how it helped develop procedures and tools to resolve operations gaps.

"This partnership is another example of SMRP expanding its offerings and educational resources to a global audience," said Erin Erickson, SMRP executive director. "PEMAC is a fantastic organization with similar programs to SMRP and a vast, knowledgeable membership base that can provide our members with new information and best practices."

"PEMAC is excited to be partnering with SMRP to host these informative webinars showcasing the asset management insights of our members," shares Cindy Snedden, PEMAC executive director. "The partnership provides a great opportunity for both organizations to engage their members to share their expertise in asset management, maintenance and reliability with professionals around the world."

PEMAC and SMRP are members of the Global Forum on Maintenance & Asset Management (GFMAM), an association of professional maintenance and asset management societies that shares knowledge, standards and best practices.

Each webinar is available for free to members and nonmembers. For more information and to register for the webinars, click [here](#).

About PEMAC

Plant Engineering & Maintenance Association of Canada (PEMAC) is a national non-profit association providing global leadership, education and certification in world class physical asset management, maintenance and reliability practices. PEMAC improves member's

professionalism, safety, performance and recognition by providing training, research, networking, and a public voice for members and the profession. For more information visit www.pemac.org.

About SMRP
